

DISL Automatic Lyrics

They Don't Care About Us

"They don't care about you... at all"

(DISL Automatic Talking)

Warning...

The views and opinions expressed in this song are those of Disl Automatic and millions of others worldwide and are based on factual information available to the public. Nonetheless, skepticism is encouraged, and I highly recommend that everyone listen to these issues on they own and draws their own conclusions. It's our obligation to ourselves, our families, and our people. Now let's go!...

[verse 1]

First of all, rest in peace George Carlin and Michael Jackson
Now it's time for action
The government got us trapped, we've had enough of this crap
They took our freedom and our dough and now we taking it back
Don't gotta take it as fact, go get the knowledge of self
They run the education system, so, college won't help
They using mind manipulation to acquire they wealth
They putting fluoride in the water to abolish our health
And the food they claiming healthy is already altered chemically
Fruits and vegetables are being modified genetically
Home grown organic food's obviously the remedy
But try and grow a garden and the FDA won't let it be
Do you know your enemy, their plans, and who their posse is?
Fast food, tobacco, alcohol industry lobbyists
Banks, oil, weapons and pharmaceutical companies
They all in this together cuz misery's where the money be

[chorus]

The government's a business, that's the bottom line
You and I are nothing more than dollar signs
(They don't care about us)
They enslave us when they bury us in debt
And they scare us with imaginary threats
(They don't care about us)
They control us with the media and news
And they poisoning our water and our food
(They don't care about us)
Then they profit off of sickness and disease
While they strip us of our civil liberties
(They don't care about us)

[verse 2]

The media's a weapon of these greedy non-benevolent
Companies, so what you see on TV is irrelevant
A bunch of harmful product and some famous people selling it
The ultimate result is a decrease in your intelligence
Billions of dollars spent on research and development
By advertising agencies to keep you in they element
P.R. companies writing the news, you think it's heaven sent
Same people who be writing speeches for the president
Me, I'm never hesitant to speak the truth
If you don't believe my words then you should seek the proof
And the scary thing is that none of this stuff is hidden
But I'll probably end up being punished for what I'm spitting
Are we all his subjects and our leader is a king?
They say seeing is believing, so I don't believe a thing
Cuz all I see is lies that the corporate media brings
So I listen and in the distance I'm hearing... freedom ring

[chorus]

The government's a business, that's the bottom line
You and I are nothing more than dollar signs
(They don't care about us)
They enslave us when they bury us in debt
And they scare us with imaginary threats
(They don't care about us)
They control us with the media and news
And they poisoning our water and our food
(They don't care about us)
Then they profit off of sickness and disease
While they strip us of our civil liberties
(They don't care about us)

[verse 3]

I got ____ blood, both my parents are immigrants
First generation, I'm an American citizen
Born as a Muslim, but that don't make me a terrorist
They fighting overseas but here at home is where the terror is
Follow no religion, no I never been an Atheist
Supporting your government does not make you a patriot
The patriot is somebody who's ready to fight
For they land and take a stand by defending their rights
The Constitution entitles us to all of our civil liberties
Why, then, are millions of citizens living miserably
Poverty, obesity, unemployment and sickness
At all-time highs according to the statistics
Healthcare providers deny us of all they services
They don't care about us, making money's what they purpose is
Depopulation and occupation of foreign land
Global domination is the New World Order plan!

[chorus]

The government's a business, that's the bottom line
You and I are nothing more than dollar signs
(They don't care about us)
They enslave us when they bury us in debt
And they scare us with imaginary threats
(They don't care about us)
They control us with the media and news
And they poisoning our water and our food
(They don't care about us)
Then they profit off of sickness and disease
While they strip us of our civil liberties
(They don't care about us)
